

8151-M100-COG-223J Find #21 Capacitor

Capacitance Value uF	Insulation Resistance Megohms Minimum
0.022	1000

Suggested Source:  
**Erie Technologic Products**  
Erie, PA

Part number: 8151-M100-COG-223J

Description: Capacitor, Fixed, Ceramic dielectric, monolithic construction

Capacitance tolerance: +/- 5%

Rated Voltage: 100VDC

Dissipated factor: 2.5% maximum at 1KHz

Dielectric test voltage: 250% rated DC voltage for 5 seconds with the current limited to 50mA.

Temperature coefficient: +/- 0.3% max over operating temp range of -55C to +125C;

Terminals: Radial leads, solder coated

Operating Temp range: -55C to +85C
